Terms of Contract for the Procurement of School Transportation

1. Frankfurt International School shall contract with transportation carriers to transport the children named on the reverse side whose parents have requested school transportation for the school year indicated according to the conditions set forth below and in the annual Statement of Transportation Fees.
2. School transportation is understood to be bus and, where applicable, taxi service as per the latest published schedule on all school days between the school and the stop nearest to the address indicated on this form.
3. Only those children may use school transportation for whom this properly completed contract has been submitted.
4. To the extent permitted by law, the school shall be liable only for fault in the selection of transportation carriers appointed by the school, which liability shall, however, be limited to intent and gross negligence. The school shall not be liable, in particular, when a bus or taxi arrives late, does not run or does not serve a given stop. On the other hand, the school shall make every effort to provide efficient service at all times.
5. The school shall not be responsible for children not using school transportation to and from school. Children below Grade 3 should be transported to and from school by school bus or private car and should not use public transportation.
6. Each child is required to use only his designated bus (or taxi) and stop. Any deviation therefrom shall be at own risk, even though a written permission for a deviation has been received from the child's parents or guardian and approved by the Transportation Office. The school will not approve any deviation for a child under Grade 3 unless it is indicated in the written permission that the child will be met at the temporary stop. In no case shall the school be responsible for a child who makes a change unless the above procedures are followed.
7. Each Pre-Primary, Primary or Grade 1 child must be accompanied to and met at the proper stop by one of his parents or another person authorized by the parents on every day he/she attends school.
8. The children should be at the designated stop five minutes prior to the scheduled departure time.
9. Children must behave responsibly whatever means of transportation they use.
10. The school reserves the right to suspend a child for cause from school transportation temporarily or for the remainder of the school year. Under such circumstances the transportation fee shall not be refunded.
11. Parents may not initiate technical changes, e.g. the location of a stop, but must request such changes through the Transportation Office.
12. Persons other than children in attendance at the school may not use school transportation without permission of the Transportation Office.
13. The school reserves the right to change routes, times or fees after due notice has been given to the parents.
14. This contract may be cancelled only in writing and up to 15 days prior to the date on which cancellation becomes effective. Any refund of transportation fees is subject to the proration procedure in place for tuition and transportation fees.
15. In case a provision of this contract should be void in full or in part, this does not affect the validity of the remaining provisions.
16. This contract is subject to the laws of the Federal Republic of Germany. Exclusive jurisdiction is in Frankfurt am Main.
