Culturally Diverse and Family-Oriented:

To meet the needs of internationally mobile families, FISW is expanding their rigorous and nurturing education from First Steps (age 3) to Grade 8 (age 13) at the beautiful Wiesbaden campus.

Faculty partner closely with parents to provide personalised support and encouragement during the teen years to ensure optimal student development, growth and success to each individual student.

FISW celebrates the internationalism of students and faculty throughout the year and provides families with the opportunity to learn about and enjoy the uniquely diverse cultures represented at FIS.

Dynamic, Inquiry-driven Education of the Highest Standard:

Science, Math, English and Humanities courses fully align with the FIS Oberursel campus to establish a successful transition into Grade 9 at FIS, or the international school of choice upon family relocation.

Highly qualified and motivated middle years faculty work with students in a team structure to create uniquely individualised student programming that is continuously reviewed to meet individual needs and interests.

Small classes, a project-based approach and formative and summative assessment practices ensure high student engagement and maximum student growth.
Creative Challenge & Exploration Options:
